Project Summary Chef's Compass

Chef's Compass is a recipe finding app for you the user, to help find a recipe based on your hunger-tackling desires and any ingredients stocked in your kitchen. Not sure how to use them effectively? Let Chef's Compass show you the way.

App features:

- On the first visit of our site you will be prompted to answer a short questionnaire so we can find you the best and most interesting recipes that you may be interested in.

- Simple Budget-Friendly Recipes : Our app aims to provide a seamless and enjoyable experience while exploring the world of flavors, all within your budget and available ingredients. The idea is to avoid going out to the supermarket at the last minute to go and buy an ingredient.

- Community Engagement : You can find, edit and create recipes with a free login and leave ratings and comments. Connect with a vibrant community of food enthusiasts to share recipes.

- Use a distant API (Application Programming Interface) to collect, process and show recipes from around the world.

- Recipes are in a short concise format to allow all cooking levels to have access and fun. Cooking shouldn't be a chore !

- Easy to find : Find recipes tailored to your preferences and dietary needs using an interactive form on our Single Page Application.

Our values and goals

- Chef's Compass aims to bring great food to all. Everyone has the right to eat and to eat right. We need not eat poorly when most of the time we have the right mix of ingredients already in the house. Worst case scenario? Head out to the supermarket and complete your recipe list and get cooking !

- Our free to use site doesn't rely on advertising to achieve its goals. We are a non-profit.

- Our goal is to bring culinary diversity to the table. Already a kitchen savvy crepe flipper? Hone your skills with new and well used recipes to open your cooking horizons.
